Re: AT&T Communications of the Mountain States, Inc.
Docket No. T-02428A-10-0468

Enclosed for filing with the Commission are an original and thirteen (13) copies of a revision of AT&T Communications of the Mountain States, Inc.'s Private Line Services Tariff. This filing corrects the maximum rates for Ultravailable Network (UVN) Service and Wavelength Private Line (WPL) Service in the Private Line Services Tariff-Schedule 9 (Interoffice Channel) from ICB to specific maximum rates.

The following tariff pages are included with this filing and should replace the pages that were submitted on November 15, 2010 in AT&T's original filing:

<u>Section</u>	<u>Page</u>	<u>Revision</u>
14	2	Original
15	1	1 st

The effective date of these replacement pages remain January 15, 2011.

Please call me at 775-333-3991 if you have any questions.

Sincerely,

Janice L. Ono

14. AT&T Ultravailable^{*} Network (UVN) Service

(N)

14.1.2 UVN Availability

AT&T Ultravailable Network (UVN) is a domestic AT&T product and is offered subject to the availability of the facilities and equipment required to provide the service. UVN Service may only be purchased under this tariff by customers whose traffic on the service will be at least 90% intrastate in nature.

UVN service can support both intrastate and interstate traffic, and is available for purchase under AT&T's Interstate Service Guide by customers whose traffic on the service will be more than 10% interstate in nature.

14.1.3 Rates and Charges

Maximum Rate[1] \$500,000 per month

15. AT&T Wavelength Private Line (WPL) Service

(N)

GENERAL

AT&T Wavelength Private Line Service (WPL) is a managed, high-speed, optical transport service that provides custom optical networking solutions for interconnecting customer's locations, data centers and business sites in a Metropolitan Area Network (MAN) environment with the ability to extend the MAN into the Wide Area Network (WAN). AT&T WPL offers inter-connection to other carrier Co-location facilities, carrier hotels, AT&T's IDCs, or other AT&T providers.

AT&T WPL supports the transmission of multiple protocols concurrently on the same fibers. The supported protocols include:

2.5 Gbps Wavelengths
Gigabit Ethernet
10 Gbps Wavelengths
10GE LAN/WAN PHY

AT&T WPL utilizes Dense Wavelength Division Multiplexing (DWDM) technologies to allow multiple frequencies or wavelengths of light that can be used to carry up to a maximum of 44 wavelengths (or channels) of data, each up to 10 Gbps. WPL can be designed to traverse both LATAs and state boundaries (Interstate only).

WPL DESIGN

AT&T WPL is an unprotected, point to point, custom designed service solution based upon specific customer requirements.

WPL AVAILABILITY

AT&T WPL is a domestic U.S. service and is offered subject to the availability of the facilities and equipment required to provide the service. WPL Service may only be purchased under this tariff by customers whose traffic on the service will be at least 90% intrastate in nature. WPL service can support both intrastate and interstate traffic, and is available for purchase under AT&T's Interstate Service Guide by customers whose traffic on the service will be more than 10% interstate in nature.
